

Air Company of Two Capitals

Brief

OUR MISSION - to be among the best, to meet the highest standards of safety and quality, to put all the efforts in order to make a flight affordable and pleasant for every passenger.

Federal State Unitary Enterprise State Transport Company RUSSIA is Russia's largest state-owned air company, and the leading air carrier in the North-Western Region of the RF. The company was established by affiliating Pulkovo Airlines (St. Petersburg) to STC Russia (Moscow) and registered on October 9, 2006. The air company is the country's only one to hubs, Pulkovo in St. Petersburg and Vnukovo in Moscow.

Russia cooperates under various commercial agreements with over 100 Russian and international airlines. Active interaction with partner companies enables RUSSIA to take its passengers virtually anywhere in the world. Today, the company offers flights to over 100 cities of the world and has 50 offices in RF and countries in and outside of the former Soviet Union.

The aviation engineering facilities of RUSSIA fully complies with today's world standards. The company's engineers can perform any maintenance for aircraft, which guarantees excellent working order of the aircraft and ensures a high safety level of the flights. In March 2005, by the results of the certification audit of the quality management system for compliance with international standard requirements, the company was among the first Russian air carriers to get an ISO 9001:2000 quality certificate, and confirmed it in December 2006.

The company's personnel numbers about 6,700. Professionalism of RUSSIA's flight personnel is proved by the fact that most of the company's pilots have categories of the International Civil Aviation Organization (ICAO) for flights under inclement weather conditions, and various admissions to international route flights.

As before, the PRIORITY TASKS of the company are flight safety, high passenger service level, perfect state of the aircraft fleet, and expansion of the air service network.

Appendix 1

Existing Code-Share agreements between STC "Russia" and other airlines

Code-Share means the agreement between 2 carriers concerning operations of joint flights.

In accordance with the conditions of such agreements, STC "Russia" passengers getting tickets on web site or sales offices of company could use the block seats and possibilities, providing on the partners flights.
