

**Statement confirming that the internship report was made without any
external help**

I, “*name of the student*”, having completed 1 year as a student of the “*name of the program*” program, confirm that my summer internship report does not contain any direct borrowings from the other sources without appropriate references.

I am familiar with the study program regulations of the Graduate School of Management SPBU, according to which any plagiarism can be the reason for receiving a “fail” for the summer internship.
